Ballet

Ballet classes incorporate steps from all of the various methods (Vaganova, Cecchetti, etc). The Monday evening (Int/Adv) class uses the full range of classical technique, moves at an advanced pace, and includes jumps and turns. The Tuesday evening (Beg/Int) class moves at a slower pace, with openness to questions/explanations of steps and may or may not include simple jumps and turns each week. During the year, ballet students may learn parts of classical variations, as well as forms of the popular character dances traditionally found in the classics.
